

ISMAEL MUÑOZ MORALES

Santomera, Murcia (Spain) | P: +34 605 90 98 87 | ismael.munoz.dev@gmail.com | linkedin.com/in/ismael-munoz-morales

EDUCATION

IES ALFONSO X EL SABIO

Murcia, Spain

Higher Technician in Multiplatform Application Development

2025

Specialized in Java, Android, and backend development, completing projects with clean architecture and Object-Oriented Programming principles.

Built capstone applications integrating databases and mobile interfaces, demonstrating end-to-end development skills.

UNIVERSITY OF MURCIA

Murcia, Spain

Bachelor's Degree in Computer Engineering – 42 European Credit Transfer and Accumulation System (ECTS) credits completed (First year)

2021-2023

Acquired foundational knowledge in programming, computer architecture, and operating systems.

Applied theoretical concepts in early projects, reinforcing technical base for later specialization.

WORK EXPERIENCE

KONETIC DIGITAL FACTORY S.L.U

Santomera, Murcia, Spain

Java Developer Intern

Mar 2025 – Jun 2025

- Developed and deployed Create, Read, Update, Delete (CRUD) applications using Java, Structured Query Language (SQL), Jakarta Server Pages (JSP), and Servlets, streamlining data handling processes.
- Migrated and optimized invoicing systems (VERI*FACTU), improving reliability and reducing manual workload.
- Structured backend logic using OOP and clean architecture, improving modularity and long-term maintainability.

PROJECTS

MVC STORE IN C# ([CodeMasters12218/Tradie](#))

2025

- Designed and deployed a full Model-View-Controller architecture with SQL Server for data persistence, enabling scalable product catalog management.
- Designed modular controllers and views to minimize code duplication and improve maintainability.
- Integrated secure authentication and role-based access, strengthening reliability in multi-user environments.

NOTES APP IN REACT NATIVE ([CodeMasters12218/notes-app](#))

2025

- Built a cross-platform mobile app supporting text, image, and audio notes, validated through extensive testing.
- Engineered file upload and synchronization via Appwrite backend; managed local file handling for attachments.
- Integrated backend with Appwrite and Node.js, ensuring real-time synchronization across devices.
- Refactored codebase with clean architecture patterns, enhancing readability and minimizing development bugs.

ROCK-PAPER-SCISSORS AI GAME IN PYTHON ([CodeMasters12218/rps-ai](#))

2025

- Developed a machine learning model using scikit-learn to predict player moves, demonstrating applied machine learning techniques.
- Created a modular training pipeline, enabling experimentation with multiple algorithms.

ADDITIONAL

Programming Languages: Java (Core, OOP, Collections, Exceptions), Kotlin (basic), Python, C#, C++ (basic knowledge for systems programming)

Mobile & Frontend: Android Studio (Java), Activities, Fragments, ViewModel (basic) React Native, Hypertext Markup Language (HTML5), Cascading Style Sheets (CSS3), JavaScript

Backend Frameworks: Spring Boot, Node.js

Databases: MySQL, SQL Server, basic knowledge of Oracle/PostgreSQL

Version Control: Git, GitHub, collaborative workflows and code reviews

Systems: Linux (Ubuntu, Kali, Arch), Windows, Docker, VirtualBox, VMware

Security Basics: Open Source Intelligence (OSINT), Network Mapper (Nmap), Wireshark, Virtual Private Network (VPN) with OpenVPN, pfSense, Suricata

Machine Learning: scikit-learn for prediction models

Languages: Spanish (Native fluency, applied in technical documentation and collaborative projects), English (B2 – Upper Intermediate, Escuela Oficial de Idiomas (EOI) Murcia, used in academic work, technical reports, and international collaboration; capable of reading and writing technical specifications and communicating effectively in multicultural teams.)

Certifications & Training: Certified disability (33%), eligible for diversity and inclusion programs, demonstrating adaptability and resilience in professional environments.

Immediate availability: Open to relocation and international mobility, with readiness to contribute to global teams.

Portfolio: portfolio-codemasters12218.netlify.app showcasing projects in Java, React Native, and Python automation.
